

REMARKS

With the foregoing amendment claims 23-58 and 63-68 are pending in the application.

Allowed Claims

Applicant wishes to extend his appreciation to the Examiner for indicating that claims 23-58 and 63-68 are allowed.

Comments on Reasons for Allowance

Applicant submits that claims 23-58 and 63-68 are allowable because the prior art fails to teach or suggest all of the features of claims 23-58 and 63-68. To the extent, if any, that the Examiner's reasons for allowance can be interpreted to mean that any one of the allowed claims is required to have a feature not recited in the claim, Applicant wishes to clarify that each claim does not require any feature not explicitly recited herein. For example, the Office Action states, "regarding claims 23-33, 35-40, 43, 46, 49-55 and 63-68, the prior art of record fail [sic] to teach or suggest a radio transceiver" (emphasis added). However, at least some of these claims do not recite a "radio transceiver."

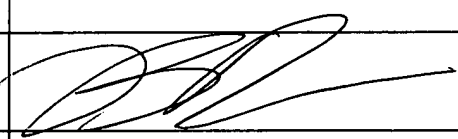

Prior Art Rejections

Claims 59-62 stand rejected. To expedite prosecution of this application, the rejected claims are canceled without prejudice.

CONCLUSION

Applicant believes that a full and complete reply has been made to the outstanding Office Action and, as such, the present application is in condition for allowance.

If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.
